EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the amended pages, the Abstract of Disclosure exceeds 150 words, so please amend it as follows:

- In lines 6-8, delete "The wheel is then separated.....to stored data".
- In lines 12-13, delete "The profile of the.....is adjusted again".
- In line 14, change "the workpiece is repeated" to read "the workpiece are repeated".

2. The following is an examiner's statement of reasons for allowance: The art of record considered as a whole alone or in combination neither anticipates nor renders obvious, a method of conditioning a grinding wheel comprising grinding grit in which a groove has been formed, comprising the steps of engaging the unconditioned groove with part of the periphery of a wafer workpiece, rotating the wafer through a small angle so as to perform a shallow grind over a small arcuate extent of the rim of the wafer, disengaging the wheel from the wafer and axially shifting the wheel or the wafer before re-engaging and performing a similar grind over another arcuate region of the wafer and performing a sequence of such steps around part or all of the circumference of the wafer thereby removing bonding material from the surface of the groove in the grinding

wheel and exposing the grinding grit, and thereby condition the wheel, together in combination with the rest of the limitations set forth in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
